

Newark

AN AVNET COMPANY

CUSTOMIZE YOUR STUDENT KITS WITH NEWARK

Do you need kits for your labs or class experiments? Partner with Newark to build easily orderable custom kits for your students.

Choose from a wide selection of electronic components, proto boards, tools & test equipment and more from over 2000 leading manufacturers. Our custom kitting services make it easy to package all of the products your students need into one kit.

We cater to custom requirements that include:

Bill of material (BOM)

- We source all components
- We identify potential substitutes on non-stocked components to minimize price, lead time, and inventory liability

Shipping

- We offer international shipping options for students overseas

Custom webpage

- We create unique webpages so you or your students can find and order their kits easily

Packaging and labelling

- We offer various packaging options
- We can customize labels, packing list, and documentation as per your request

Call us at **1.888.531.1037** or send an email to educationkits@newark.com
